

under the sea

Hello Robins and Owls! This week our topic is all about 'under the sea'. Lots of creatures live under the sea, do we know what they are? We are going to explore and learn about what they look like, their names and how they move. We can use the internet to help us.

Activity	How to do it	Or...
Sing 'Down in the ocean'.	If you don't know the words, here is a link: https://www.youtube.com/watch?v=QWIDPgRY-bg	
Pretend you are a deep sea diver and make a water tank to fit on your back.	Find 2 empty pop or water bottles, stick them together with tape then tie them to your back.	Make goggles and a snorkel out of card. 
Make a textured starfish.	Cut out a starfish shape, get cereal, i.e. cheerio's, or rice krispies, because they are bumpy and textured and glue them on. 	Get your adult to cut out a starfish, put it on a bumpy surface(bubble wrap or a towel) and using a wax crayon rub it with the side of the crayon.
Make 3d sea creatures out of dough!	Think carefully about the features of the animals and use tools to add detail.	
Kitchen towel throw and catch.	Get a towel hold it between 2 hands, throw it up in the air, can you catch it? Put a ball in your towel can you ping it out.	Take a ball throw it up in the air count how many times you can catch it without dropping it. Challenge yourself!

Mermaids and Mermen.	Wrap your legs together, with some scarves, and see if you can move like a mermaid, wave your legs like a fish.	Test yourself see if you can keep your legs together and move, it is very hard! How far do you get?
Move like a sea creature.	Can you...swim, jump, flap, bob up and down walk sideways. Which animals do that?	After practicing, have a go at moving like a sea creature, and see if someone can guess which one you're being!
Sing Baby shark.	Go onto you tube, type in Baby shark.	
Make an octopus.	<p>using a paper cup, carefully attach 8 legs made from lengths of zig zag folded paper.</p> <div data-bbox="792 681 972 809" data-label="Image"> </div> <div data-bbox="1046 678 1184 820" data-label="Image"> </div>	<p>If you have a paper plate cut it in half, colour it and attach 8 legs. (Make sure it's 8 not 9 or 7!)</p> <div data-bbox="1485 715 1599 817" data-label="Image"> </div>
Try to make an ocean in a jar.	Half fill a jar with water, add a bit of blue colour, then add some vegetable oil. Fix the lid securely (ask your grown-up to do this) turn it to the side and move the water gently it looks like the sea.	The sea and the oceans are salty water. Make some by putting a little water in a cup, mix in salt stirring until it has dissolved. Then leave it to evaporate on a sunny window sill, the salt crystals are left!
Wild workouts with Andy from cbeebies.	Type under the sea cbeebies onto google Follow the thread to either an iplayer link or via youtube	
Shark sound hunt.	Make a shark's open mouth on the side of an empty cardboard box (see picture below). Now hunt around the house to find 'sh' objects to post inside. (shell, shape, shampoo, shoe etc).	No cardboard box, Next time you finish a box of tissues, use the tissue hole and put inside pictures of 'sh' objects

Sing Five Cheeky Fish action rhyme	The words are at the bottom of the page	
Make a Magnet fishing game	Make and cut out some paper fish, fix a paper clip onto its mouth. Find a pencil. Tie on some string and fix a magnet onto the end. Go fishing.

<https://www.youtube.com/watch?v=7pMEQsk3c5Y> down in the deep blue sea

Five Cheeky Fish

(sung to the tune of Five Cheeky Monkeys)

Five cheeky fishes, (hold up five fingers, swim hand from side to side)

Swimming in the sea,

Teasing Mr. Shark,

'You can't catch me-e,

You can't catch me-e.'

Along comes Mr. Shark (form shark with second hand)

As quiet as can be and

SNAP! (clap hands together)

Four cheeky fishes...
