Friday	Computing	<p>Use a camera</p> <p>You can use a mobile phone camera, digital camera, watch camera- in fact any type of camera to take a picture of some transport.</p> <p>On your daily exercise walk try and capture different modes of transport on your journey. You might be able to spot a car, a truck or even a bus.</p> <p>If you can, you could try to upload the images taken to your files on J2e or if you can print some of the photos and stick them in your homework book- that would be great too.</p> <p>If you haven't got a camera then you can make a note of all the different types of transport you see and draw them in your book.</p>	<p>https://www.j2e.com</p> <p>Sign in and go to my files to drop image files here. You might need some help from an adult for this.</p>
