

**As well as these you can also do the Week 4 daily activities in Purple Mash**

<b><u>MONDAY 27<sup>th</sup></u></b>	<b><u>Challenge activities</u></b>	<b><u>Additional activities</u></b>
<p>Maths: Write down <b>20</b> division facts that you know (based on your knowledge of the times tables) E.g <math>5 \times 4 = 20</math> therefore, <math>20 \div 4 = 5</math>. You <b>MAY</b> wish to write down the multiplication fact next to the division fact.</p> <p><b><u>Extension</u></b> What do you notice about your number sentences? Are there any patterns?</p>	<p>Multiply a 3-digit number by a 2-digit number using long multiplication. E.g. <math>123 \times 21 =</math> Complete at least <b>8</b> examples. Can you have a go at using another method to solve the answer?</p> <p><b><u>If you need help...</u></b> Log onto your MyMaths account, click on Practice, go to Page 5 and click on Short and Long Multiplication.</p>	<p>My Maths: as set (check daily) <a href="https://www.mymaths.co.uk/">https://www.mymaths.co.uk/</a></p> <p>Purple Mash - Choose a maths game/times tables activity <a href="https://www.purplemash.com/login/">https://www.purplemash.com/login/</a></p>

Email Mr Marsh or Miss Boulter if you have any questions or want to send work.

<u>TUESDAY 28<sup>th</sup></u>	<u>Challenge activities</u>	<u>Additional activities</u>
<p>Maths:</p> <p>Square numbers:</p> <p>Complete the following:</p> <p>6 squared =      9 squared =      7 squared =</p> <p>8 squared =      4 squared =      5 squared =</p> <p>Can you have a go at drawing a picture for each one? See below for help.</p> <p><u>What are squared numbers?</u></p> <p>This is where a number is multiplied by itself.</p> <p>2 squared = <math>2 \times 2 = 4</math></p> <p>4 is a square number. It is called a square number because if we had 4 small squares, we could make a larger square.</p>  <p><u>If you need any help...</u></p> <p>Log onto your MyMaths account, click on Practice, go to Page 3, click on Squares and Cubes and then click on Try Lesson.</p> <p><b>Extension</b></p> <p>Can you spot any patterns with square numbers?</p>	<p>Can you have a go at writing down cube numbers starting from 1?</p> <p>How far can you go?</p> <p><u>What are cube numbers?</u></p> <p>This is where a number is multiplied by itself 3 times.</p> <p>E.g. <math>2 \times 2 \times 2 = 8</math></p> <p>8 is a cube number because if we had 8 small cubes, they could be used to create a larger cube.</p> <p><u>If you need any help...</u></p> <p>Log onto your MyMaths account, click on Practice, go to Page 3, click on Squares and Cubes and then click on Try Lesson.</p>	<p>My Maths: as set (check daily)</p> <p><a href="https://www.mymaths.co.uk/">https://www.mymaths.co.uk/</a></p> <p>Purple Mash - Choose a maths game/times tables activity</p> <p><a href="https://www.purplemash.com/login/">https://www.purplemash.com/login/</a></p>

WEDNESDAY 29 <sup>th</sup>	Challenge activities	Additional activities
<p>Maths:</p> <p><u>Subtraction</u>- choose a task or challenge yourself by completing both!</p> <p>A) Subtracting a 2-digit number by a 2 digit number. E.g. <math>63 - 12 = 51</math>.</p> <p>REMEMBER- the first number <b>MUST</b> be <b>BIGGER</b> than the second number.</p> <p>B) 3-digit numbers by a 2-digit number e.g. <math>134 - 32 =</math></p> <p>Can you complete <b>8</b> of your own examples?</p> <p>You may need to <b>RENAME</b>, this where you do not have enough (hundreds, tens, ones) and have to borrow from your neighbour (like we have learnt in class).</p> <p><u>If you need help...</u></p> <p>Have a look at the following website:  <a href="https://www.schoolsofkingedwardvi.co.uk/ks2-maths-year-5-5a-addition-subtraction-using-columns/">https://www.schoolsofkingedwardvi.co.uk/ks2-maths-year-5-5a-addition-subtraction-using-columns/</a></p>	<p>Can you find the common factors of 64 and 20?</p> <p><u>What do you need to do?</u></p> <ol style="list-style-type: none"> <li>1. Find the factors of each number.</li> <li>2. Circle the factors that are the same- these are the common factors.</li> </ol> <p><u>Example</u></p> <p>Find the common factors of 20 and 10</p> <p><u>10</u></p> <p><math>1 \times 10 = 10</math>  <math>2 \times 5 = 10</math></p> <p>The factors of 10 are: <b>1, 10, 2 and 5</b></p> <p><u>20</u></p> <p><math>1 \times 20 = 20</math>  <math>2 \times 10 = 20</math>  <math>4 \times 5 = 20</math></p> <p>The factors of 20 are: <b>1, 20, 2, 10, 4 and 5</b>.</p> <p>The <b>COMMON FACTORS</b> of 10 AND 20 are 1, 10, 2 and 5.</p> <p><u>If you need any help...</u></p> <p>Log onto your MyMaths account, click on Practice, go to Page 2, click on Factors and Primes and then click on Try Lesson.</p>	<p>My Maths: as set (check daily)</p> <p><a href="https://www.mymaths.co.uk/">https://www.mymaths.co.uk/</a></p> <p>Purple Mash - Choose a maths game/times tables activity</p> <p>Help for subtraction:  <a href="https://www.schoolsofkingedwardvi.co.uk/ks2-maths-year-5-5a-addition-subtraction-using-columns/">https://www.schoolsofkingedwardvi.co.uk/ks2-maths-year-5-5a-addition-subtraction-using-columns/</a></p>

<u>THURSDAY 30<sup>th</sup></u>	<u>Challenge activities</u>	<u>Additional activities</u>
<p>Maths:</p> <p>Subtract the following fractions e.g. <math>7/8 - 1/8 = 6/8</math></p> <p><math>4/5 - 2/5 =</math></p> <p><math>2/9 - 1/9 =</math></p> <p><math>5/8 - 3/8 =</math></p> <p><math>11/12 - 5/12 =</math></p> <p><b><u>Extension</u></b></p> <p>Can you draw bar models to represent the subtraction?</p> <p>Write an explanation on how subtract fractions.</p> <p><b><u>If you need any help...</u></b></p> <p>Log onto your MyMaths account, click on Practice, go to Page 5, click on Adding and subtracting fractions and then click on Try Lesson.</p>	<p>Explain how you know that the following are NOT prime numbers: 36, 12, 144</p> <p><b><u>What is a prime number?</u></b></p> <p>A prime number is a number that has only 2 factors.</p> <p><b><u>If you need any help...</u></b></p> <p>Log onto your MyMaths account, click on Practice, go to Page 2, click on Factors and Primes and then click on Try Lesson.</p>	<p>My Maths: as set (check daily)</p> <p><a href="https://www.mymaths.co.uk/">https://www.mymaths.co.uk/</a></p> <p>Purple Mash - Choose a maths game/times tables activity</p> <p><a href="https://www.purplemash.com/login/">https://www.purplemash.com/login/</a></p>

<u>FRIDAY 1<sup>st</sup> May</u>	<u>Challenge activities</u>	<u>Additional activities</u>
<p>Maths:</p> <p><b><u>Multiplication</u></b>- Choose your task OR challenge yourself by completing all!</p> <p>A) Multiply numbers by 100 e.g. <math>5 \times 100 = 500</math>. Multiply each of these numbers by 100: 8, 7, 2, 1, 6</p> <p>B) Multiply decimals numbers by 10 e.g. <math>1.5 \times 10 = 15</math>. Multiply each number by 10: 1.6, 2.9, 6.7, 17.7, 28.5</p> <p>C) Multiply decimals by 10 and 100 Multiply by 10: 12.7, 123.4, 98.07 Multiply by 100: 87.09, 65.003, 6.7</p> <p><b><u>Extension</u></b> Can you complete your own examples? Can you explain your method?</p> <p><b><u>If you need any help...</u></b> Log onto your MyMaths account, click on Practice, go to Page 2, click on Multiply decimals by 10 and 100 and then click on Try Lesson.</p>	<p>Covert improper fractions into mixed number fractions. E.g. <math>7/5 = 1 \text{ whole and } 2/5</math></p> <p>Can you draw a picture to prove your answer?</p> <p><b><u>If you need any help...</u></b> Log onto your MyMaths account, click on Practice, go to Page 5, click on Improper and Mixed fractions and then click on Try Lesson.</p>	<p>My Maths: as set (check daily) <a href="https://www.mymaths.co.uk/">https://www.mymaths.co.uk/</a></p> <p>Purple Mash - Choose a maths game/times tables activity <a href="https://www.purplemash.com/login/">https://www.purplemash.com/login/</a></p>
